Product Description

U8 is positioned as a million-level high-end new energy hard off-road vehicle. Based on two independent research and development of core technology achievements - Yidsifang technology and Yunlian-P intelligent hydraulic body control system. Yifang technology can achieve extreme stability, emergency floating, turn-around and agile steering and other scene functions, to bring users the ultimate safety, performance and experience. The U8's maximum power output exceeds 1,100 horsepower, and the fastest 100 km acceleration time is only 3.6s, which makes the U8 have off-road strength.
